

VANN'S CHRISTMAS!

He Receives Many Presents from Friends

And Would Be Happy if Christmas Came Offener.

HOPES TO BE REMEMBERED AGAIN

People Who Come and Go--Brief Briefs of Interest to All Readers of The Globe.

...and some power the gift give us
To see ourselves as others see us."

...and the man who invented
"Pep" remarked Sancho Panza; and we
...and the way of emphasis, may
...and the "man" garland the eternal sleep
...and the "man" like sage! Some-
times our intellectual pendulum gets un-
balanced, and the unadulterated pleasures
of life slip by unnoticed; then, with re-
turning consciousness, we are apt to un-
happen ourselves of some choice expres-
sions, which are not intended or offered
as applications to any of the Olympian
gods--miserable discontents that we are!

Human nature seems to be fashioned
upon a wild, devil-me care kind of a base,
more ethereal in its application than the
misty dreams of the alchemist, or the
feeling scenes in the panorama of love.

To illustrate: Some of our good Dur-
ham friends, bless their pious intentions,
with a unanimity of forethought, worthy
of all praise, hit upon the pleasing idea
of sending this old man a nice substan-
tial Christmas present, one made up of
materials, they thoughtfully imagined,
that would thrill the chords of good
cheer in our desolate heart, and waft
memory back to ante bellum days--those
days wreathed and jeweled with the
smiles and tears of a mother's love!

Here is a partial list of the pot pourri as
received by us, with names of donor at-
tached:

Half gallon of oyster brains, and one
pound of shoe pegs from General Fran-
cis M. Barbee--the pegs to be used, by
request of donor, to repair a rip in the
lateral half of our conscience, the result
of an intellectual strain some years back.

Major Sam Dixon chips into the gen-
eral fund three dozen "possum eggs,"
fresh from his mountain ranch, and a
two gallon jug of a certain article labeled
"Simmon Cordial," but with a delight-
fully breezy odor that reminds one of the
near approach to a moonshiner's habita-
tion. (Thanks, Sam, old boy, forever
thanks!)

A baked turkey, toothsome and juicy,
stuffed with oysters to the point of ex-
plosion, and other little et ceteras pro-
foundly mysterious, and accompanied by
a duck of an invitation to attend a socia-
ble to be given at her residence on New
Year's eve--this from Madam, the charm-
ing Widow O'Tool. (Alas! Major Rob
Orr had better watch the ebb and flow
of the tide.)

Colonel Pete Briggs thoughtfully--
usually that way--and kindly donated a
hemp rope, twelve feet in length, with
the genial request that we hang ourself,
and thus spare the sheriff the unpleasant
duty. We have taken the matter under
consideration, and should the burdens
of the flesh get too thick along life's
pathway, we'll utilize the choker as per
request--donation cheerfully accepted.

A case of "Villa Cabras" mineral water,
Dr. Johnson's share, in part, of the good
things in Santa Claus' pack, next claims
our notice. This was supplemented with
a package of the good doctor's "Rooster
Powders"--evidently an oversight; other-
wise we are in the dark as to their in-
tended use. However, there may be,
possibly, a latent insinuation to cope
with here. Later on we'll investigate
this in the interest of progressive science.

Colonel "Bow" Harris, the phar-
maceutical genius who presides over the
destinies of Dr. Johnson's laboratory,
sends us his mite to cheer us along
the rough path of life, an alcoholic
specimen (in glass jar) of the genus
"Chaulmoogra," and two ounces solid
extract of "Compliments of the Season."

In conjunction with an aromatic decoction
of olei figi and beazine--a hilarious,
compound mental tonic. It is evident
that Mr. Harris is of the opinion that
our mental stamina has about unshipped
its rudder, and that the old barque of
reason will soon be hopelessly stranded
on the further shore of the nebulous
period. Common sense and fresh ideas
are ingredients we stand very much in

need of; therefore we'll give the mental
tonic a trial and trust in providence, as
usual, for results.

The last article, which we shall notice
in our collection, was a well thumbed
copy of the "Book of Mormon," on the
the fly leaf of which was written, in a
bold, vermicular scrawl: "From your
friend, Dr. Tyer." We violate no confi-
dence by saying that this latest addition
to our library was sent in by some wag-
gish scamp, and not by this good doctor;
we all know that he has never, at any
time, affiliated with, nor sanctioned by
word or deed the doctrines of those
polygamous scalawags over in Utah or
elsewhere.

It is the one regret of our life that
Christmas comes only once in the year;
but we hope to still be with you at her
next annual call, and that our friends
will again remember L. D. VANN.

RESOLUTIONS OF RESPECT

Adopted by Trinity M. E. Sunday School Sunday, December 25.

Whereas, The great ruler of the universe has, in his infinite wisdom, removed from our midst our worthy and esteemed brother and member of Trinity Sunday school, Otis W. Roney, who died December 13, 1892, therefore resolved:

1. That the sudden removal of such a promising young man leaves a vacancy and shadow that will be deeply felt and realized by all members of this Sunday school and his many friends

2. That we cherish in our minds a fond remembrance of his many commendable traits of christian character, and strive to meet in heaven.

3. That we extend our sincere sympathy to his parents and sorrowing friends and humbly commend them for comfort to the God whom he so faithfully served.

4. That a copy of these resolutions be spread upon the minutes of our school, and a copy be sent to the family of our deceased brother and furnished THE DURHAM DAILY GLOBE for publication.

An excellent remedy. "Two of my children have been much troubled with neuralgia all winter. They used Salivation Oil and a few applications produced a complete cure. I consider it an excellent remedy. John H. Jones, Deputy Inspector, Tobacco Warehouse No. 4, Baltimore, Md."

A PARIS EXPLOSION.

Anarchists at Work Against the Police Department.

PARIS, Dec. 29.—There was an explosion in the office of the prefecture of police here, but no fatalities resulted. The building was badly wrecked and it is believed to have been the work of anarchists.

PUBLIC EDUCATION!

Superintendents of the City Schools Meet at Greensboro.

Professor E. W. Kennedy Delivers an Able Address.

OFFICERS ELECTED FOR THE YEAR

President Winston Gave a Free Scholarship to One Graduate from Each Graded School.

The superintendents of the city schools of North Carolina are called together each year during the Christmas holidays to discuss various systems and methods, whereby the cause of public education may be rendered more prosperous and beneficial.

These intelligent superintendents realize the great responsibility resting upon them and strive earnestly and intelligently to promote their cause—a great and noble cause—training the present generation.

The meeting this year was held in Greensboro and was elegantly entertained by Superintendent Grimsley, of that city.

PROGRAMME

J. J. Blair, Winston, subject, "Art Spirit in Public Schools."

Alderman, Reidsville, "Experience of a New Superintendent."

E. W. Kennedy, Durham, "Morality in Public Schools."

L. D. Howell, Tarboro, "Library."

J. Y. Joyner, Goldsboro, "Education a Growth."

E. P. Moses, Raleigh, "Philosophy."

Claxton, Asheville, "Course of Study."

Mangum, Concord, "Language."

E. L. Hughes, Greenville, S. C., "Reports."

Thompson, Grimsley and Kizer read interesting papers.

Dr. Shearer, president Davidson college, delivered quite an able address on Unification of Education in North Carolina.

President Winston delivered an address, after which a committee was appointed to confer with a similar committee from the universities and colleges to map out a course of study for the public schools whereby graduates of graded schools may enter the freshman class at the University and colleges. He also presented a scholarship giving free tuition to one graduate of each graded school in the state. This was generous and noble on the part of the University and was highly appreciated by superintendents.

President C. D. McIver gave an interesting account of work being done at the Normal and Industrial School—marvelous progress in two and one-half months. This school has three courses: (1) Normal; (2) Domestic Science; (3) Business. A diploma from this institution gives life-license to teach public school in the state. Superintendents visited the school and were much pleased with the work being done.

Officers for ensuing year: P. P. Claxton, president; Logan D. Howell, secretary. The next meeting will be held at Wilmington.

These meetings are tremendous testimony of the increased educational revival in North Carolina during the past ten years.

E. W. Kennedy, of the Durham schools, delivered an able address in the most emphatic and earnest manner. He spoke of the necessity of example to teach morality; the study of the great book and the lives of noble christian men. He suggested that we should study the bible in our schools as other studies and hold up before our pupils the great lives of the great men of the great ages of the world. His remarks were appreciated.

The Homeliest Man in Durham. As well as the handsomest, and others are invited to call on druggist and get free trial bottle of Kemp's Balsam for the Throat and Lungs, a remedy that is selling entirely upon its merits and is guaranteed to relieve and cure all Chronic and Acute Coughs, Asthma, Bronchitis and Consumption. ONE WORD!

I come to you with a small affair that you may need. In England, the Continent and many foreign countries, myself and wares are well known. Many American families on their return from abroad bring my articles with them, for they know them pretty well, but you may not be one of these.

Confidence between man and man is slow of growth, and when found, its rarity makes it valuable. I ask your confidence and make a reference to this Journal to indorse that confidence. I do not think it will be misplaced.

I make the best form of a cure—an absolute one—for biliousness and headache that can be found in this year. The cure is so small in itself, and yet its comfort to you is so great—20 minutes being its limit when relief comes—that it has become the marvel of its time. One and a half grains of medicine, coated with sugar, is my remedy, in the shape of one small pill, known to commerce as DR. HAYDOCK'S NEW LIVER PILL. It is old in the markets of Europe, but is new to North America. The price is as low as an honest medicine can be sold at, 25 cents. Send a postal card for a sample vial, to try them, before you purchase.
